The starting point

For more than 140 years Bertazzoni cooking appliances have helped people bring the best of home-cooked food to the family table. Bertazzoni is proud to do this because we understand food and cooking are essential elements of Italian life. Over the span of 3 centuries, we have shared the love of food and family with the world. Today, Bertazzoni's reputation continues to be based on high quality design, engineering and a deep passion for food. Whatever your cooking style, Bertazzoni products will help you to cook and serve food with Italian precision and passion.

The Bertazzoni way

Family roots

In the 19th century, Francesco Bertazzoni made precision weighing machines in Gustalla, northern Italy. Watching trains arrive from Germany one day, he noticed that the railcars were heated by a new type of wood-burning stove, one the crew also cooked on. This innovation appealed to Francesco's entrepreneurial instincts and his love of food and family and they have been passed down through six Bertazzoni generations, defining the brand.

Family. Engineering. Land.

Francesco and his son Antonio adapted the railway stove, producing cooking stoves first sold locally, then throughout Italy. In 1909, the next generation, led by Napoleone Bertazzoni, built a factory next to Gustalla railway station. The stoves they produced there soon began to win awards for both design and quality.

From Guastalla to the World

Napoleone introduced mass production techniques, learned from the region's growing car-making industry. In the 1950s Bertazzoni manufactured its first gas stoves and the 1960s saw the first exports, with electric and dual fuel ranges added to gas. These sold in more than 60 countries worldwide and in 2005 Bertazzoni began exporting to the USA and Canada. Today, the brand keeps cooking ranges at its heart but also makes appliances for the complete kitchen.

The first Bertazzoni logo was registered in 1923 in Italy.

Precision engineering

Italy is renowned for its natural fusion of design and engineering, and there is a long tradition of engineering and craftsmanship rooted in this region. Around Guastalla, in cities like Turin, Bologna and Milan, you'll find iconic car and motorbike companies like Maserati, Ducati, Lamborghini, Ferrari. These powerful appliances are engineered for performance and designed to impress.

A clear promise

Bertazzoni stands for an equally clear and desirable promise, with products that function perfectly but are also stylish and elegant to look at. Form and function become one, giving you the means to cook beautifully with products crafted with precise engineering and thoughtful design. It's rooted on the idea that cooking brings families together and understanding quality products help achieve that aim – an Italian art that the world appreciates.

Parmigiano Reggiano
(Parmesan cheese)

Iconic ingredients

Parmigiano Reggiano (Parmesan cheese), Prosciutto di Parma (Parma ham), mortadella sausage, cured meats and salamis, balsamico di Modena (balsamic vinegar), Lambrusco, Sangiovese and Trebbiano wines, and many types of pasta – Tagliatelle, Tortellini, Ravioli – all have local origins. Here there is wheat for pasta, corn for polenta. Grazing land for pork, beef, veal, poultry and game. Butter and cheese. Rice for risotto. Porcini, nuts, truffles from the woods. Peaches, pears, cherries, quince and, of course, tomatoes full of flavor. All the ingredients for a perfect meal.

At the heart of it all

Bertazzoni's heart and soul lies in the heart of the home, the kitchen. And food is at the heart of every kitchen. Located in the region of Emilia-Romagna, known as the 'bread basket of Italy' since Roman times, Bertazzoni is steeped in the ingredients and recipes that have made Italian cooking famous worldwide.

The kitchen series

Professional Series

Smart thinking.
Clean lines.
Precise design.

Master Series

Practical elegance.
Integrated vision.
Beautiful efficiency.

Heritage Series

Authentic inspiration.
Classic style.
Powerful influence.

Professional Series

Smart thinking.

Clean lines.

Precise design.

The beautifully designed Professional Series brings best-in-category capacity, flexibility and usability, delivering professional performance for your kitchen at home. It has been designed as an evolution of its own distinctive style, with elegant knobs, ergonomically designed handles, and sophisticated colors. These iconic elements blend design and an innovative approach to function. This signature style has won many design awards since its introduction.

The complete Professional Series kitchen suite includes freestanding ranges and built-in ovens, rangetops and cooktops, fridges, dishwashers, ventilation systems.

The coordinated kitchen

Introducing an entirely new category of ovens and induction cooktops that blend cutting-edge technology with the iconic clean lines of the Professional Series. The new ovens incorporate the latest cooking innovations, including steam functionality and the Bertazzoni Assistant. They are available in single and double cavity configurations, or as a combination with a microwave oven. The induction cooktops are engineered to deliver both performance

and elegance, with frame options in Gold, Carbonio, and Stainless Steel to complement any kitchen style. With their sleek design, these appliances offer a refined, modern aesthetic that harmonizes seamlessly with built-in elements, freestanding ranges, refrigerators, and dishwashers. Everything comes together effortlessly to help you create your ideal kitchen.

“We don’t start with the aesthetics but we end with it.”

Master Series

Practical elegance.
Integrated vision.
Beautiful efficiency.

With all the efficient qualities you expect from Bertazzoni, the Master Series has a style that is all its own, with a sophisticated color palette that turns your kitchen into a work of art. Blending the best of commercial kitchen-inspired style with advanced technology and fine Italian design, it is both beautiful and versatile. Featuring freestanding ranges and capacious ovens, together with wall-ovens, cooktops and a complete suite of appliances matched by design to complete your kitchen. The Master Series can now be personalized with the Collezione Metalli, including two new finishes – Satin Gold and Black Nickel.

The coordinated kitchen

As well as being supremely practical, the Bertazzoni Master Series is exceptionally stylish — its distinctive design and sophisticated color palette will transform your kitchen. Striking metal control knobs and bold commercial styling define every appliance in the series, all engineered for high performance and a confident presence.

The new Bianco finish with golden accents is now available for ranges, hoods, refrigerators, and dishwashers. Designed as a coordinated suite, it helps create a kitchen that is bold, functional, and elegant.

“Our mission is to make people happy through products that give pleasure”

Heritage Series

Authentic inspiration.

Classic style.

Powerful influence.

Bertazzoni is proud to have six generations of tradition and innovation underpinning its beautiful kitchen appliances. The magnificent Heritage Series is modeled on the cooking ranges that Napoleone Bertazzoni would recognize from the early 1900s; what would surprise him is the innovative 21st century engineering and technology the series contains. Authentic in exterior design yet advanced on the inside, these are modern classics.

Driven by fresh thinking and engineering, they are full of respect for Bertazzoni's heritage; something the company is proud to recognize and celebrate and our customers embrace as their own. The new Heritage Series ranges feature an exclusive "Bertazzoni Serie Limitata" serial number plate, making each piece unique, and every appliance in the range can be personalized with the Collezione Metalli décor sets in gold, copper and nickel.

The coordinated kitchen

Introduce a powerful classic look to your modern kitchen with the Heritage Series. Its iconic styling make this series compatible with any kitchen design, making a contrasting statement or a past era-inspired center piece. The classic design language is paired with high performance modern engineering. The perfect way to integrate

a wide range of cooking options, it adds a warm, authentic and welcoming classic look to your kitchen.

“Functionality is in our DNA. Making things that work”

Colors and finishes

Texture paint

The classic, elegant finish of our Texture paint brings a sophisticated and pleasing look to your kitchen. Our direct-on-metal applied color finish has been developed over decades to perfect the protection of surfaces in the kitchen. It is particularly suited to creating stunning matt finishes.

Bertazzoni use this process to create the rich, deep texture paint finish on the Master Series and Heritage Series ranges. Available in two beautifully matt colors – Nero and Bianco – it is also very practical, durable and stain and scratch resistant. The process uses pigmented powder made from resins and other materials, which is applied electrostatically and then cured at extremely high temperatures. As it heats, it flows to form a “skin”. This skin creates an exceptionally hard finish that is much tougher than conventional paint.

Automotive paint

Practical application came from the traditions of the Italian sports car industry and the likes of Lamborghini and Ferrari. Bertazzoni has partnered with experts in the luxury automobile industry, using highly skilled craftsmen to manually apply multiple layers of color, using a process identical to that used on sports cars.

The deep colors are applied to doors and other panels, contrasting stylishly with the stainless steel around them. The glossy finish is hard-wearing and resistant to acids and temperature corrosion. It gives a long-lasting luster that brings a new dimension of elegance to your kitchen.

Enamel

Available on the new Heritage Series, this finish was inspired by the original wood-burning stoves that Antonio and Napoleone Bertazzoni built in the 1930s. The enameling process was adopted because it creates a very durable finish that makes cooking surfaces easy-to-clean.

After almost a century the Bertazzoni designers decided to celebrate the brand's heritage by introducing this enamel inspired ivory color on the new models of the Heritage Series ranges.

Collezione Metalli

Collezione Metalli enhances Bertazzoni cookers, hoods, refrigerators and dishwashers with precious decorative details. These special finishes are achieved with real Gold, Copper and Black Nickel for a refined finishing touch and greater protection from everyday kitchen use. Each finish comes in sets that you can buy with your appliance or at a later date to personalize the look of your kitchen.

Elevate by master Introducing Collezione Metalli for Bertazzoni Master Series

The Collezione Metalli collection is now also offered for the Master Series suite, available in two new Décor Set finishes: Satin Gold and Black Nickel. This will personalize your Master Series ranges, dishwashers and refrigerators from the control knobs to the finials on the door handles.

Enhanced by heritage Introducing Collezione Metalli for Bertazzoni Heritage Series

An elegant finishing touch Choose from two real metal finishes: Copper-plated and Black Nickel-plated. The Copper is finished to a high shine, while the Black Nickel is available in a stylish matt finish. Both finishes have a special treatment to protect them from the wear and tear of kitchen life, keeping them looking perfect for many years.
