

The Fusion Luxe is one of our most popular and best-selling mattresses. It has a medium-plush feel and is designed to actively adapt to the contours of every individual, providing pressure relief to side sleepers.

- Cooling Knit Fabric Cover
- 1.5" Gel AeroFusion™ Memory Foam
- 1.5" AdaptiFoam™
- 1.5" Flex Comfort Foam with Egg Crate Top
- 6.3" Hybrid Base with Individually Pocketed Springs
- 1.5" Flex Support Base Foam

Fusion Luxe

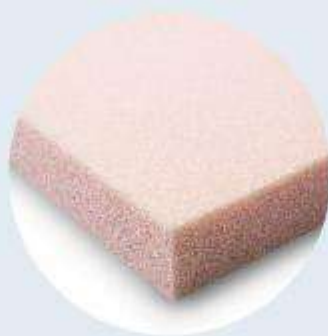

Cooling Knit Fabric Cover

This cover not only breathes, but the air flow creates a cooling sensation keeping you comfortable while you sleep. This highly advanced fabric stays cool-to-the-touch due to its superior breathability and temperature regulating properties that move heat away from the body.

Gel AeroFusion™ Memory Foam

This material takes memory foam to the next level. Micro-channels optimize airflow and temperature regulation to ensure you stay cool while still getting the comfort and pressure-relieving benefits memory foam is famous for. In addition, it offers supportive spinal alignment while maintaining a plush feel. This foam was previously labeled as AirCell Foam.

AdaptiFoam™

This specialty foam is engineered to be open-cell for breathability with all the rebound and firm support of latex while being allergy-free. Previously labeled as Smart Foam, the properties of this foam offer exceptional airflow and premium comfort.

Egg Crate Embossed Foam

This embossed foam is an egg-crate pattern that can be added to any foam. The embossed pattern provides additional plushness to the layers above. The undulations in the foam offer constant support and promote airflow to lower the temperature of the surrounding foams.

Individually Pocketed Springs

The specially crafted pocketed coil system allows the mattresses to be rolled and compressed for easy shipping. In addition, our pocketed coils are unmatched in their ability to support and conform, letting the sleeper relax and rejuvenate. The fabric exterior wrapping of the individual springs improves airflow through the coils to keep the sleeper comfortable.
