**Product Description:** Enhance your living space with the Archives Nesting Tables, a set of two versatile tables designed for both function and beauty. The smaller table fits neatly underneath the larger one, allowing you to maximize space when needed. Finished in Classic Walnut over ash burl veneers, these nesting tables offer a rich texture and timeless appeal, making them a practical yet stylish addition to your home.

**Collection Features:** Archives taps in to a design trend that mixes modern, trendy styles with historic elements, known as "hipstoric". Complementing a variety of design styles with timeless forms and elements, the trend creates a sense of undeniable luxury. Layering rich and authentic materials, such as figured walnut veneers, top grain leather, woven raffia, and polished marble, Archives' assortment speaks to consumers who yearn for structured elegance with a dash of mystery

**Status:** New

**Finish:** The high clarity Classic Walnut finish over ash burl veneers adds richness and depth.

**Features:** Set of two tables  
Smaller tables fits underneath large table  
Classic walnut finish over ash burl veneers  
Round top edges

**Material:** Ash Burl

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
