

JS750DF

GE® 30" Slide-In Electric Convection Range

Dimensions and Installation Information (in inches)

Receptacle Locations: Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against rear wall.

Note: This appliance has been approved for 0" spacing to adjacent surfaces above the cooktop. However, a 6" minimum spacing to surfaces less than 15" above the cooktop and adjacent cabinet is recommended to reduce exposure to steam, grease splatter and heat.

Installation Information: Before installing, consult installation instructions for current dimensional data and additional requirements

Optional Kits For Slide-In Electric Ranges

(Available At Additional Cost)

Accessory Backguards
(Attaches to the back of range as a backguard when unit is installed in 30" free-standing cutout)

JXS32SS (Stainless) - 4" High
JXS32BB (Black) - 4" High

Body Sides

(Slide-in ranges are sold without sides installed. Can be installed on either left or right when unit has one exposed side [no cabinet adjacent]. Kit contains 1 body side)

JXS77BB (Black)

Rear Filler Strip

WB07T10680 - Black Filler Strip Assembly

Optional Lower Trim Kits

(If counter height is greater than 36.5", a lower trim kit is recommended to extend the useful height to 38" maximum)

JXS56BB - Black

KW Rating	
240V	12.6
208V	9.5
