

CONCORD

2.5-Way Floorstanding Speaker

Named fondly after Concord Street in Cambridge, the birthplace of the KLH loudspeakers, this speaker is anything but middle-of-the-road when it comes to performance. The Concord is a 2.5-way bass-reflex design, featuring woven Kevlar drivers with steel baskets, braided tinsel leads, custom designed crossovers, an anodized aluminum tweeter with linear response faceplate and much more. All of this is finished in European Walnut and Black Oak. The Concord is a rare combination of beauty and brawn, with unparalleled sonic detail at an unexpected price.

SPECIFICATIONS

Concord Floorstanding Loudspeaker
