

TITUS

COFFEE TABLE | CM4193WH-C

DETAILS:

Each table is available individually, but they all display the same distinct visual geometry. The matching coffee, end, and sofa tables share an inspired design that incorporates durable steel frames finished in polished chrome, forming the legs of each piece. The table top and the open bottom shelf are both in a high gloss finish, complementing the chrome pretty nicely. Drawers are available, along with a lift top mechanism on the coffee table for extra storage and a more flexible piece.
