

# CENTURY<sup>®</sup>

## **CONCRETE CARE INSTRUCTIONS**

The surface is veneer of concrete. Concrete is a porous material and as such it will stain easily.

We have applied a nitrocellulose or NC finish, which is a protective finish used in residential furniture.

Spills should be wiped up immediately. The surface can be cleaned with a damp cloth soaked in warm, soapy water and then wiped dry with a clean cloth to absorb any excess moisture. We do not recommend furniture polish as a regular cleaning process; however, a wax based furniture polish used sporadically can provide extended protection.
