Availability: In Stock

Type: Cabinets, Curio Cabinets

Category: Living Room

Collection: Accents April 2021

Number of Shelves: 5

Style: Modern/Contemporary

Finish: Medium Wood

Brand: PFC

Product Description: Create an instant focal point with the modern and functional Sliding Door Curio. Crafted of selected Hardwood and Birchwood Veneers, it has four adjustable glass shelves and one stationary shelf. The sliding door has a detailed carving design with a door lock key for added protection. A soft gray finish creates a sophisticated light-and-airy style, while three shelves offer generous space for displaying essentials, decorative accessories, photos, and more. A top-mounted LED puck light provides practical and aesthetically pleasing lighting, perfect for enhancing and illuminating your collectibles.

Collection Features: Whether placed in a living room, dining area, or office, our display cabinets and curios offer a versatile storage solution. With adjustable shelves and built-in lighting options, these cabinets are perfect for displaying everything from fine china and collectibles to artwork and books. Designed with meticulous attention to detail, our cabinets offer both style and durability.

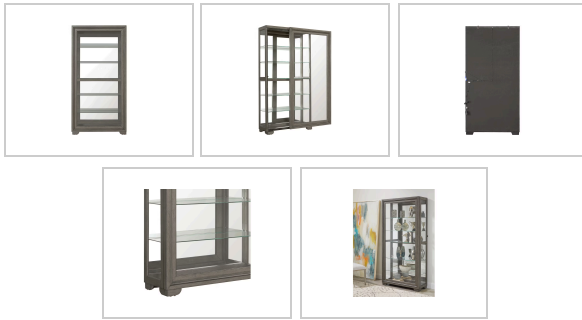

Status: Active

Finish: Gray undertones subtly blend with the natural finish, creating a modern look with rustic elegance

Features: Blends modern, rustic charm with contemporary elements
Four adjustable/removable glass shelves and one fixed glass shelf offer ample space to display your cherished items
The LED light adds a touch of elegance to the display, creating a focal point and enhancing the overall aesthetic appeal of the cabinet's contents

Material: Birch Wood Veneers

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
