The DM-8G-CONN-WG is a shielded RJ45 connector designed for use in terminating Crestron [DM-CBL-8G](#) DigitalMedia 8G™ Cable. The wire guide design makes it super easy to align each conductor with the terminals while maintaining proper twists for optimal performance. The integral strain relief facilitates termination of the shield and assures a rugged overall construction. Termination of each conductor and the shield is completed using the [DM-8G-CRIMP-WG](#) crimping tool (sold separately).

The DM-8G-CONN-WG is sold in packages of 100 (Model # DM-8G-CONN-WG-100). Each connector is RoHS and UL compliant, and includes a blue snagless plastic boot.

NOTE: For termination of DigitalMedia™ Ultra Cable ([DM-CBL-ULTRA](#)) and legacy DigitalMedia Cable ([DM-CBL](#)), please see the [DM-CONN](#).
