

FINISHES

Wood is a nature's product having natural variations in grain and coloration that come from the growth pattern of each tree. Due to these natural variations, finishes can and will vary. Exact color matches are not guaranteed. The finish samples on this website and in our product literature have been reproduced as accurately as photographic and printing technology will allow. Individual monitors and printers will alter the appearance of color and grain, Designmaster is not responsible for any scanning or typographical errors. For the most accurate representation of our wood finishes, please visit a local Designmaster Furniture dealer.
