

Introducing the New Primo GO

Portable and At-Home Cradle and Base for the Oval JR 200.

The Primo Oval JR 200 with the Primo GO and GO Base.

Primo GO

Primo GO Base

About the Primo GO

The **Primo GO** for the Oval JR 200 grill is a two-piece cradle and base that offers portability and at-home use without the need for a grill table or cart.

Insert the Oval JR 200 in the **Primo GO**, then easily detach it from the **GO Base** by removing the four pins for maximum portability. A team of two can easily use the sturdy carry handles on the **Primo GO** to transport it.

The **Primo GO** can be used on a truck tailgate, on a picnic table, or even at ground level on a stadium parking lot. Bring along the **Primo GO Base** for stand-alone use.

The Primo GO, GO Base and the Oval JR 200 grill are all sold separately.

GO With the Largest Portable Ceramic Grill Available

Add the Primo GO and the Oval JR 200 grill surpasses all other portable ceramic grills with 210 square inches of cooking area. Add the Optional Rack System and the cooking area soars to 360 square inches. That's more than twice the cooking area of the second largest portable ceramic grill. Grill, bake, roast or smoke for 10 or more people wherever you want to go.

Primo GO Versus the Competition
