Product Description: Bring classic style, fashion flair and multifunction to your office, chairside, hallway or guest room with the Leesburg Lateral File. Crafted of Swirl Mahogany and Ebony Veneers with a rich traditional finish with elegant cathedral and swirl mahogany veneers, the file offers two locking file drawers with a Pendaflex letter/legal file system so you can get organized.

Collection Features: Leesburg harkens back to an antebellum time when elegant traditional mahogany furnishings with graceful lines set the stage for Southern hospitality and grand occasions.

Status: Active

Finish: Leesburg features a rich, traditional mahogany finish with elegant cathedral and swirl mahogany veneers and light physical distressing. Distressing includes worm holes.

Features: Two locking file drawers with Pendaflex letter/legal file system

Traditional/Formal styling

Material: Swirl Mahogany and Ebony Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms

are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
