

WIRELESS RANGE EXTENDER

HEOS Extend

**WIRELESS RANGE EXTENDER:
IMPROVE YOUR WIRELESS NETWORK**

Now that you've chosen the HEOS wireless multi-room sound system, you'll want to be sure you can enjoy its amazing sound anywhere in your home. HEOS Extend helps you do that.

EXTEND YOUR RANGE

Simply place the HEOS Extend conveniently within range of your existing wireless router, to make your home wireless network larger and stronger.

Allows you flexibility to place HEOS speakers wherever you'd like in your home, even far from your existing wireless router.

Set up is easy. Just power on HEOS Extend and follow the simple directions in the HEOS app.

EXTEND YOUR WIRELESS NETWORK

HEOS Extend increases the range and performance of your home wireless network, to ensure top audio quality with your HEOS Wireless Multi-Room Sound System and your wireless smart devices.

Featuring dual band "N" high speed wireless technology (a/b/g/n), the HEOS Extend provides wider coverage area and stable network performance, even in larger homes as well as apartments, condominiums and other multi-unit dwellings.

Easy to setup and easy to use, HEOS Extend can be tabletop and shelf mounted, and comes with a wall mount plate for wall or ceiling mounting. Easily configure the HEOS Extend to your needs: Extender mode improves the range of an existing network and Access Point mode sets up a new network.

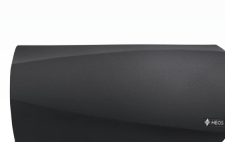

WORKS WITH ALL THESE HEOS PRODUCTS, INCLUDING:

HEOS 7

HEOS 5

HEOS 3
