The Deanna Console Table has panels of woven raffia on its top, sides and shelves that are surrounded by black strips of Okoume wood to coordinate with the table's legs. The combination of black and ivory brings this piece a tailored feel that fits within a wide spectrum of design styles, especially a room that exudes Hollywood glamour. The subtle texture of the raffia is a special aspect of this design, as is the fact the table and shelves are fitted with inset glass to protect the natural fibers. A plinth base is made of metal in a brushed brass finish, the clean lines bringing added sophistication to the piece.
