

PEREGRINE

SECTIONAL | SM5415-SECT

DETAILS:

What's truly exciting about the Peregrine lounge set is the uniqueness of its assembly. Each left and right parts may be used as a stand-alone chaise; however, combined they offer maximum comfort. The fabric is of velvet-like material--soft to the touch with a little sheen that makes the brilliant teal color pop. Its color alone makes this a definite statement piece. The sloped arms make it easy to lean on either side of the piece, while the removable box cushions make keeping it clean a breeze.
