

**REST ON A**  
*solid foundation*

**STEARNS  
& FOSTER®**

**HIGH PROFILE**  
*nine inches*

**LOW PROFILE**  
*five inches*

## **SOLID BASE**

Supports the mattress with a solid flat surface to help extend the mattress durability and comfort.

## **SUPERIOR CONSTRUCTION**

2 in x 4 in components prevent the frame from shifting over time. Double centre supports prevent sagging, and structured corners provide protection to each corner.

## **DISTINCT DESIGN**

Specially designed to enrich the performance of Stearns & Foster mattresses. Complementary colours to pair with any mattress. Available in a choice of Low or High profile.

## **COMPATIBILITY**

Our foundation is compatible with any mattress on the market today. It is important to note that federal flammability standards are based on a set of the same brand.

The foundation's dimensional specs are within industry standards allowing for use of conventional furniture and bed frames. It is worth noting that due to the weight of the foundation, we recommend use of a high quality frame with center support/slats/etc.

## **SAFETY STANDARDS**

Stearns & Foster mattresses and foundations have been extensively tested and are compliant with all federal and local regulations.

## **BUILT TO LAST**

10 Year Limited Warranty
