

52QUE UE SERIES

2-WAY FULL RANGE UNDER EAVE LOUDSPEAKER - 3.5" DEPTH

(4) 0.75" (19mm) Aluminum Dome Quad-Array Tweeter

(1) 5.25" (89mm) Aluminum Woofer

The Under-Eave series of speakers is exactly what you'd expect from James Loudspeaker, high quality audio and durability in a sleek, versatile, under-eave design. The 52QUE is just one of these multi-use speakers. Boasting a compact design this speaker easily integrates into any environment, both indoor and outdoor. With the James high excursion proprietary woofers, and the signature James aluminum dome quad-array tweeter, this compact speaker offers silky smooth response across a broad range of frequencies from 24kHz all the way down to below 70Hz, with an impressive sensitivity of 88dB. This versatile speaker pairs perfectly with the James SPL5 series to provide a compact surround sound system, delivering crystal clear audio with minimal visual impact. It can also easily be used as a standalone on-wall or bookshelf speaker with or without a companion James subwoofer.

The 52QUE is constructed entirely of aircraft grade aluminum for strength, sonic performance, and durability, and includes an aluminum perforated grille to provide years of trouble free use. Blind through holes are incorporated into each speaker for wall mounting or brackets can be purchased separately.

Size	12.5 h x 5.75 w x 3.5 d (in) 318 h x 146 w x 89 d (mm)
Freq Response	70Hz-24kHz ±3dB
Impedance	8 ohms
