

HPB3611-4_N

Insert Range Hood 36"

Integrated

The Insert Range Hood seamlessly integrates behind your cabinetry to maintain a seamless look in the kitchen. It offers edge to edge extraction to effectively remove steam, odors and grease.

Stainless Steel

Dimensions

Depth	11"
Height	16 1/4"
Width	34 5/8"

Features & Benefits

Edge to edge extraction

Filters effectively reach edge to edge, which maximizes the amount of extraction area.

Full surface lighting

The even lighting provides full coverage of the cooktop, illuminating food in its true color, with no hot or dark spots and no glare or shadows. The dimmable lights have fade in and fade out features.

Easy to use

This easy to use range hood operates with fingertip control of LED-illuminated soft touch buttons. Selected models also come with a remote control.

Energy efficiency

Powered by a brushless DC motor, the Insert Range Hood operates more efficiently, more reliably and with less noise than units with AC motors. Plus, fewer moving parts mean less erosion and longer lifetime.

Simple installation

The simple installation process is compatible with most precut cabinetry. The adjustable mounting system can be installed with 5/8" to 9/16" cabinetry board.

Effortless cleaning

The stainless steel filters are easy to remove and are dishwasher safe. A self-contained grease tray within the filters makes them very easy to clean.

Achieve the invisible

Beautiful in its simplicity, this product seamlessly blends behind cabinetry, with brushed finished surfaces and no visible screws.

Specifications

Cleaning

Dishwasher safe filters	3
Filter cleaning alert	•

Controls

Auto-off/Run-on timer	•
Control type	Electronic
