

# ASKO Outdoor Dishwasher

## D5934 Outdoor Dishwasher

### Designed to withstand the elements:

- o 18:9 stainless steel exterior and interior are low maintenance and durable
- o All electronics and wiring are protected from the elements and made to last through the coldest winters and hottest summers
- o Adjustable steel feet keep dishwasher level on textured stone outdoor kitchen floors

- o Simple winterization steps allow it to be stored outdoors, even in the coldest winters

### Capacity designed for outdoor dining occasions:

- o Holds up to 12 full place settings
- o Exclusive upper rack offers height adjustment enabling 7 1/2" – 9" clearance
- o Exclusive upper rack offers fold-down stemware supports for wine glasses
- o Exclusive lower rack offers wide tines and dedicated spray system on left side for large bowls, platters and pans.

### 7Spray wash system:

- o Six wash programs and six wash temperature settings up to 160 degrees

### Fahrenheit

- o Triple filtration system made of stainless steel.
- o Internal flow-thru heater system provides accurate wash and rinse temperatures

### Water and energy efficient:

- o Uses as little as 3.8 gallons of water per load.

### Streamlined design:

- o Control panel hidden on the top of the door made with UV protected cover.
