

Overview:

This rack mount kit offers two configurations:

1. Two XSource connected side by side, using the **left rack ear** and the **right rack ear (long)**.
2. Four XSource connected side by side, using the **left rack ear** and the **right rack ear (short)**.

Thank you for purchasing this Rack Mount Kit for XSource.

This rack mount is designed specifically for XSource placement in equipment rack.

The kit contains 3 pieces:

Left rack ear

Right rack ear (short)

Right rack ear (long)

Installation:

Connect two or four XSources by using the integrated slide connectors as shown below.

Attach rack ears, left and right by using same method.
