The Shallowest Architectural

KIN IC/IW Slim Series

KIN IC6 Ultra Slim

KIN IC 6 Ultra Slim has a 2.05" total depth. Previous KIN IC6-SLIM model was 4". Our design incorporates a **fully enclosed dual function vented back box**, protecting all componentry against any physical damage or foreign intrusion yet allowing discreet venting for bass supplementation. Weather resistant drivers, can be used in covered outdoor applications and high humidity areas such as washrooms. Micro perf steel grills with a **NEW weather resistant COATING ON THE GRILL**. Updated hardware for greater strength and durability. Suitable for any application, inside or under eave.

Discover your Kin Architectural and expand your musical experiences.

Glass Fiber Woofer

Reinforced glass fiber flat-cone woofer can be used in covered outdoor applications and high humidity areas such as washrooms.

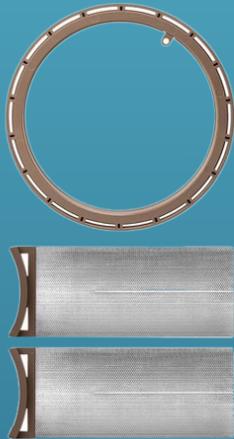

Soft Dome Tweeter

1 inch PEI dome, Optimized crossover componentry and dual phase deflectors on tweeter for increased dispersion.

Pre-Construction Kit

PCK6 Ultra Slim kit

The PCK6 Ultra Slim kit is equipped with multiple points to connect the wings guarantees that contact with drywall is always within access.

Rotating clamps

Rotating clamps have brass inserts to prevent thread stripping. The stainless-steel machine bolts are thread-strip and rust resistant.

Specifications

Design:	6" Ultra Slim In-Ceiling Speaker
Frequency Response:	55 Hz – 25 kHz
Recommended Power:	25-100 W
Woofers:	6" Glass Fiber Flat Cone Double 'U' Surround woofer
Tweeter:	1" PEI Soft dome tweeter
Impedance:	8 ohm
Sensitivity (dB @1W-1M):	90dB
Dimensions (w x h x d):	236 x 52 mm / 9.29 x 2.05 in
Cutout:	207 mm / 8.15 in
Grille Type:	Weatherproof, magnetic, paintable, virtually bezel-less white metal
Accessories / Options:	Pre-construction brackets
Speaker Terminals:	Spring loaded Gold Plated
Weight:	1.59 kg / 3.5 lb
Speaker Wire:	Accepts up to 12 gauge
Dispersion pattern:	75 degrees

KIN IW6/IW8 Slim

A Wall of Sound

The shallowest of all Totem Architectural IN WALL speakers fit effortlessly into the tight confines of standard construction framework, transforming them into walls of sensational Totem sound.

Powerful bass generated by the 6" or 8" carbon fiber woofer meshes flawlessly with the clear, precise highs emanating from a ¾"(IW 6 Slim) or a 1"(IW 8 Slim) ceramic coated tweeter. Totem's incomparable dispersion will wholly occupy the entire space to ensure every spot of the living area sounds like a prime location. They also **seamlessly intermesh** with all other Totem speakers for all encompassing multichannel systems to flawlessly mix and match as required.

Only 3 ¾" deep to easily fit in any wall

Carbon Fiber Woofers

The pure polymer impregnated carbon weave is very stiff and light for fast, dynamic bass. Coupled to a high compliance rubber suspension, the cone motion is controlled for the best possible transient response and clarity.

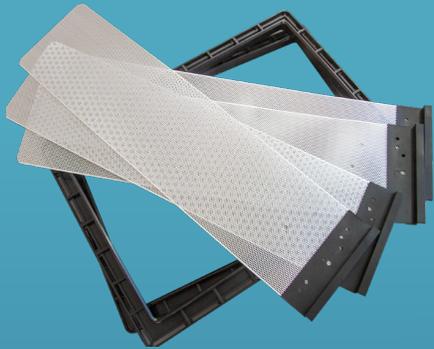

Ceramic Dome Tweeters

Tremendous stiffness and damping characteristics with resonances past our hearing ability so sound is natural, clear, and distortion-free. Resistant to moisture and extreme temperatures, making the speakers suitable to almost any application.

Enormous Dispersion

KIN IC Slim in-wall models disperse at 75 degrees, almost twice as broadly as competitive speakers. Acoustic coverage is totally present throughout the entire listening area, ensuring everyone enjoys an quasi optimal acoustic experience.

Pre-Construction Kit

As the KIN Architectural models are all quite substantial, the kits are equally robust. Wings aren't plastic, they're made of metal.

Specifications

Design:	Slim 6" In-Wall
Frequency Response:	55 Hz – 25 kHz
Recommended Power:	10-100w
Woofer:	6" Carbon Fiber
Tweeter:	¾" Ceramic Dome
Impedance:	8 ohm
Sensitivity (dB @1W-1M):	90dB
Dimensions (w x h x d):	229 x 315 x 89mm / 8.97 x 12.4 x 3.5"
Cutout:	190 x 277mm / 7.48 x 10.71"
Grille Type:	magnetic, paintable, virtually bezel-less white metal
Accessories / Options:	Pre-construction brackets
Speaker Terminals:	Spring loaded Gold Plated
Weight:	2.35lb / 1.34kg

Pre-Construction Kit

As the KIN Architectural models are all quite substantial, the kits are equally robust. Wings aren't plastic, they're made of metal.

Specifications

Design:	Slim 8" In-Wall
Frequency Response:	48 Hz – 25 kHz
Recommended Power:	10-125w
Woofer:	8" Carbon Fiber
Tweeter:	1" Ceramic Dome
Impedance:	8 ohm
Sensitivity (dB @1W-1M):	91dB
Dimensions (w x h x d):	264 x 364 x 102mm / 10.39 x 14.33 x 4.01
Cutout:	225 x 328mm / 8.85 x 12.75"
Grille Type:	magnetic, paintable, virtually bezel-less white metal
Accessories / Options:	Pre-construction brackets
Speaker Terminals:	Spring loaded Gold Plated
Weight:	4.6lb / 2.08kg

KIN IW6C

Introducing the KIN IW6C: The KIN Series with the ultimate Shallow-Profile Speaker center/LR.

Totem proudly presents the KIN IW6C, a versatile and remarkable addition to our architectural lineup. Incorporating a sleek, shallow design, the KIN IW6C can easily nestle within standard construction frameworks, effortlessly transforming them into **an immersive Totem soundscape**. This innovative speaker is meticulously crafted to seamlessly fit between standard stud bays, offering unparalleled versatility and performance.

The KIN IW6C is ingeniously designed to adapt to various configurations. It shines as an LCR (Left-Center-Right) setup, delivering balanced audio projection. Moreover, it seamlessly intermeshes to compliment the KIN IW6 and KIN IW8 models, creating a synergistic and uniform surround sound experience. This adaptability allows for **dynamic, solutions tailored for every preference**.

Crafted to flawlessly intergrate with the KIN architectural series, the KIN IW6C presents an ideal **multi-purpose solution** that excels even in the face of the most challenging projects. It's two 6.5" woofers generate powerful bass, perfectly harmonizing with the precise highs emanating from a 1" silk dome tweeter. The result is a sonic interplay that surprises and superbly envelops the listener.

Discover your Kin Architectural and expand your musical experiences.

Totem's signature dispersion technology ensures an all encompassing soundstage that transforms every area of your living space into an acoustic haven. Even in less-than-optimal installations, the pivoting tweeter can be oriented towards the listening position, ensuring utmost precision and articulation. The KIN IW6C guarantees an immersive audio experience that's second to none.

Elevate your auditory journey with Totem Architectural's KIN IW6C. Explore the limitless possibilities of our KIN Architectural Series, **elevate your musical experience** and sonics to the very highest levels.
