

RAINER DISPLAY CABINET - COMPLETE

The Rainer Display is a beautiful statement piece when a more vertical piece is called for. With display storage in the deck and closed door storage in the base, this cabinet is full of subtle surprises. Behind the doors of the base is an adjustable shelf to help accommodate a range of storage needs. While the display oriented deck features beveled glass doors, wood-framed glass shelves that are adjustable, and touch lighting that is controlled by touching the right side hinge.
