Specifications subject to change. Accessories information available on the web at frigidaire.com / frigidaire.ca

* When installing refrigerator adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 140° door swing, providing complete crisper access and removal. (Absolute 3" minimum clearance will ONLY allow for 90° door swing which will provide limited crisper access with restricted removal.)

INSTALLATION SPECIFICATIONS

- Product Shipping Weight (approx.) 220 Lbs.
- · An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (NFPA 70) and local codes & ordinances
- · Voltage Rating 120V/60 Hz
- Connected Load (kW Rating) @ 120 Volts = 0.72kW
- Amps @ 120 Volts = 6.0 Amps
- · Always consult local and national electric & plumbing codes
- Floor should be level surface of hard material, capable of supporting fully loaded refrigerator.
- Minimum 3/8" clearance required for sides and top of refrigerator with 1" clearance at rear to allow for ease of installation, proper air circulation, and plumbing/electrical connections.
- When installing refrigerator adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 140° door swing, providing complete crisper access and removal. (Absolute 3" minimum clearance will ONLY allow for 90° door swing which will provide limited crisper access with restricted removal.)

- To ensure optimum performance, do not install in areas where temperature drops below 55°F or rises above 110°F and avoid installing in direct sunlight or close proximity to range, dishwasher or other heat source.
- · For proper ventilation, front grille MUST remain unobstructed.
- · Recess electrical outlet when possible.
- Water recess on rear wall recommended to prevent water line damage.
- Water Pressure Cold water line must provide between 30 and 100 pounds per square inch (psi).
- Copper tubing with 1/4" O.D. recommended for water supply line with length equal to distance from rear of unit to household water supply line plus 7 additional feet. Optional Water Supply Installation Kits available.
- · Adjustable front rollers to assist with door alignment.

OPTIONAL ACCESSORIES

• Ice Maker Kit - (PN# IM116)

Note: For planning purposes only. Always consult local and national electric, gas and plumbing codes.
