

PLATINUM PREMIUM INDUCTION COOKTOP

Precision. Power. Performance.

The **Platinum Premium Induction Cooktop** utilizes advanced **electromagnetic induction technology** to deliver powerful, efficient, and precise cooking performance.

Unlike traditional electric or gas ranges, induction generates heat directly within the cookware itself – not on the surface. This means:

Faster heat-up times

Superior temperature precision

Maximum energy efficiency

A safer, cleaner cooking surface

SMART DIGITAL CONTROL PANEL

- Power On/Off Button
- 8-Level Power Adjustment (+/- Controls)
- Timer Function for Controlled Cooking
- Child Safety Lock (press and hold for 3 seconds to deactivate)
- Standby Indicator Light

TECHNICAL SPECIFICATIONS

Power Supply

AC 110–120V | 60Hz

Maximum Power Output

1200 Watts

Automatic Shut-Off

Powers down after
2 hours of inactivity

Cooling System

Integrated internal cooling fan
continues operation briefly after
shut-off for heat dissipation
