Product Description: A nod to the 1920's beloved Tuxedo arm sofa, the Raine Collection is a modern-day historical gem. Offered in a variety of cover options, the 30.6-by-24.6-inch Raine Ottoman gives you freedom to express your own personality with endless options of welt combinations. A classic silhouette design, the Raine features contrast welting in all the right places, accentuating the continuous line of impeccable tailoring, much like a tuxedo.

Collection Features: A nod to the 1920's beloved Tuxedo arm sofa, the Raine is a modern-day historical gem. Offered in a variety of leather & fabric options like this rich, olive green, this collection gives you freedom to express your own personality with endless options of welt combinations. A classic silhouette design, the Raine intentionally positions the arms and back at the same height. Featuring contrast welting in all the right places, the Raine celebrates and accentuates the continuous line of impeccable tailoring, much like a tuxedo.

Frame Construction: Our M upholstered furniture collection pieces are benchmade from sustainably sourced wood and upholstered start to finish by our skilled craftspeople in both North Carolina and Virginia. Every piece has been thoughtfully designed for today's modern lifestyle. Frames are constructed of sustainably certified kiln dried engineered hardwood. Frame parts are joined with precision cut interlocking joints that are glued, stapled to reduce movement, twisting and warping. Frames have cornerblocks that are glued and screwed at stress points, especially on seat rails and other high stress areas. Depending on rail thickness, frames may be of a hybrid construction, adding a solid hardwood inner frame to give seat rails additional support.

Seat: Poly Seat Cushion - Tight seats: High resiliency plant-based foam with an overlay of polyester fiber.

Fabric: Choice of over 130 fabrics including a wide selection of performance fabrics

Contrasting Fabric: Contrasting welt available for an upcharge

COM Fabric Yardage Required 54-Inch Plain: 5.0

Seating Construction: Seat bases are supported by a sinuous arc metal spring construction. Our springs are made from partially recycled content. Due to the design requirements of some styles, rubberized webbing may be used instead of springs. Double rows of springs are used at the corners for extra support. Seat bases are insulated with polypropylene fabric and are padded with synthetic fiber.

Trim: Standard welt trim. Contrasting welt available for an upcharge.
