

KMC 1

TAKE THE CONCERT WITH YOU. WIRELESSLY.

The Klipsch Music Center KMC 1 is the ultimate portable music speaker. Its small size lets you take it just about anywhere, while its “front row center” sound will astonish you with its impact and clarity. Easy music streaming from any Bluetooth® equipped smartphone, music device or computer with the added benefit of answering, conversing, terminating or even ignoring phone calls from that same smartphone, automatically pausing your music in the process. Solid-built and aesthetically designed with elegant soft-feel paint, high-gloss metallic accents and touch-sensitive controls.

LEGENDARY KLIPSCH LIFELIKE SOUND

Even though it's small in stature its remarkably large sound is what we're known for. Dual 2.5" (6.35cm) full range drivers are enhanced with dual 3" (7.62cm) passive radiators for deep, musical bass. 40 watts of peak system power with advanced DSP equalization provides lifelike, dynamic sound at any volume level. AptX® audio coding technology allows for lossless, audiophile quality music streaming.

LONG LASTING PORTABLE OPERATION

AC/DC operation makes the KMC 1 portable. A class-leading 8 hour capacity internal, rechargeable Lithium-ion battery gives you an all-day, festival-length dose of your favorite music on the go.

A HOST OF CONVENIENT FEATURES

The KMC 1 keeps any smartphone, most tablets and other music sources charged with its USB input (cable not included) and plays virtually any non-Bluetooth music source with its 3.5mm input (cable not included). It remembers the last connected Bluetooth device and automatically reconnects to it the next time if it's available. Up to eight different Bluetooth devices can be stored in its memory.

Our strong partnership with Live Nation Entertainment, the world's leading live entertainment company, has inspired a line of wireless music systems. The Klipsch Music Center Series is named after one of the five most ticketed live music venues in the world.
