# Maddie Sideboard Natural

Meet Maddie: a little Provence, minus the plane ticket. Inspired by arched doorways, its glass-front doors with fine mullions turn everyday storage into a quiet display moment. Tuck away the not-for-show stuff behind closed doors, and let your favorite pieces catch the light up front. A solid oak frame adds steady structure, while oak veneer over MDF keeps surfaces clean and consistent. Tempered glass finishes the look—and keeps it practical for real life, every day.

- Provence Arches: Arched door silhouettes and fine mullions bring a collected European feel, balancing airy glass with grounded panels for a calm profile.
- Oak And Glass: Solid oak frame pairs with oak veneer over MDF panels and shelves, finished with tempered glass to keep the look light.
- Steady Structure: The solid oak frame provides reliable support, while veneered surfaces help resist everyday wear and keep the finish looking consistent over time.
- Display And Hide: Glass-front storage shows off pieces you love, and closed doors keep extras out of sight so the room feels instantly clearer.
