### Technology

- The natural Tencel™ in our premium cover is more absorbent than cotton, softer than silk and cooler than linen, improving moisture wicking and natural hygiene.
- Alternating offset coils provide increased support, reduced roll off and promotes better comfort, support and alignment than traditional coils.
- Comfort and support foams are crushed to minimize the initial softening and lock in the comfort, to feel like new longer.
- Coils systems are encased in foam to provide more sleeping surface and improve the edge support.
- Specifically designed to articulate on adjustable beds to customize your sleep experience.
