## Symbols glossary

---

|                                                                                  |                                                                                                                                                          |                                                                                   |                                                                                                                                     |
|----------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
|  | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.                          |  | LED display: to show programmes, functions and options selected and the time to the end of the cycle.                               |
|  | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.               |  | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage. |
|  | Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.                                            |  | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.               |
|  | Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption. |  | Air plus: keeps food fresher for longer.                                                                                            |
|  | SABBATH: function that allows to cook food respecting Judaism's day of rest provisions.                                                                  |                                                                                   |                                                                                                                                     |

---

## Benefit (TT)

---

### **No-Frost system**

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

### **Plastic multiflow system**

The Multiflow system ensures even distribution of cold air inside the refrigerator

### **Fan**

The fan contributes to an even distribution of air inside the refrigerator

### **Refrigerant gas R600a**

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

### **External handle**

The external handle ensures practicality and ease of use of the refrigerator

### **Refrigerator Internal lighting**

Interior lighting for perfect visibility of shelves in the refrigerator compartment

### **Freezer internal lighting**

Interior lighting for perfect visibility of the drawers in the freezer compartment

### **Inverter compressor**

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

### **Automatic Ice Maker**

Automatic ice maker for ice always available when needed

The automatic ice maker is connected directly to the kitchen water supply, so there is no need to manually fill any tanks. This saves considerable time and ensures hygiene and convenience.

### **Internal display**

Internal display for targeted temperature control and a clean, minimalist design
