CONVENIENCE YOU CAN COUNT ON

The contemporary and stylish, Sharp® SWB3052DS built-in double wall oven is more than just beautiful and functional, it is an absolute must-have for home entertaining. Two, 5.0 cu ft. ovens maximize cooking capacity and lets you cook two different courses, at two different temperatures, all at the same time.

The SWB3052DS Upper Oven features True European Convection to cook evenly and heat efficiently. The 8 pass upper-element in both ovens provides edge-to-edge performance. The 6-pass hidden bake element and sculpted floor of the refined, cobalt blue porcelain interior makes cleanup a breeze. Convenient warming mode provides an efficient way to utilize your Lower Oven for reheating. Modern, touch glass controls and a large LCD display makes the control panel easy to see, operate and clean. Six sculpted rack positions on both the Upper and Lower ovens create a versatile cooking space and makes cooking for a crowd simple. The bright, halogen interior lighting and large viewing pane let you keep an eye on your food from the outside, while the built-in precision probe thermometer in the Upper Oven keeps you updated on what is happening inside.

The Sharp SWB3052DS built-in double wall oven features edge-to-edge stainless steel, black glass and clean sight lines that flow with your lifestyle, and pair beautifully with other stainless steel appliances. With decades of experience designing innovative cooking appliances, it's easy to see why cooks around the world trust Sharp.

The SWB3052DS is more than just beautiful and functional, it is a must-have for home entertaining.

Upper oven probe thermometer monitors internal temperatures for precise control.

Dedicated heating element and fan provides True European Convection for even baking and roasting.

The bright, halogen interior lighting and large viewing pane let you keep an eye on your food from the outside.
