Catania Large Blue Planter

2200-0007

Availability: as of 9/17/2021 4:26:07 AM

Made of terracotta with greenish undertones and milky white and blue drip overlay, the Catania Large Blue Planter is a garden ornament, patio pot or interior accent that looks as if it was left to age for centuries. Whether it has a plant in it or not, it will be a vintage-inspired decorative piece of value. Our Sicilia planters have a similar glaze but are more rounded in shape.
