## Carly Coffee Table Panther Stone

A cure for square spaces. Carly is all about the soft landing. Its capsule-shaped marble top rests on a slightly flared oak pedestal, picking up on the base's rounded form. The warm wood draws out the marble's natural veining, giving the whole piece a quiet sense of cohesion. Designed to round out sharper spaces, it brings sculptural balance where form meets feeling.

- **Material Matchmaking:** A marble capsule top combines with an oak veneer pedestal base, creating a harmonious blend of natural elements.
- **Warm Meets Cool:** The warmth of the oak base complements the cool of the marble top, while the wood tone picks up on the veining.
- **Modern Curves:** Round curves and capsule shape of both the top and base soften the lines of a rectilinear room, bringing balance, visual interest, and a cohesive look.
