Asher Mirror Brown

An octagonal frame that turns a wall into architecture. Layered solid acacia stacks up across a wide profile, casting a shadow line all the way around and giving the Asher mirror a sense of depth and a handcrafted feel. A warm mid-tone brown lets the natural grain run across the generous frame, so the eight-sided shape reads both classic and current. Angular lines, warm wood — geometry that earns a second look.

- Architectural Octagon: The eight-sided frame brings a classic, architectural shape to the wall, reading structured and current at the same time across a wide profile.
- Layered Acacia Frame: Solid acacia is layered across a wide profile, casting a shadow line around the frame that gives the mirror depth and a handcrafted feel.
- Natural Grain Finish: A warm mid-tone brown finish lets the natural grain show across the substantial frame, lending the piece a rich, handcrafted character on the wall.
