AEG

36" Built-In 5-Zone Induction Cooktop

FEATURES & BENEFITS

Induction Cooktop

Create tastier dishes in less time with an induction cooktop from AEG. Featuring superior temperature control, take your cooking to the next level with an electric induction cooktop. Unleash your culinary creativity and cook up a storm with AEG's induction Cooktops.

Blends Seamlessly Into Any Kitchen

The unique black surface, bevelled edges, and metal base align perfectly with every kitchen style. When the cooktop is switched off, the ceramic glass is completely black. While powered, the surface illuminates to reveal red LED backlit controls.

Bridge Zone

The Bridge function combines two cooking zones together to fit any large or long pan. Sharing the same temperature and time setting, the linked zones are ideal when you're cooking for dinner parties or bigger celebrations.

Touch & Slide Design Controls

The touch & slide design controls user interface allows for precise temperature control in an instant without having to toggle through the plus and minus buttons. Heat levels can be adjusted quickly, easily, and accurately.

Quicker heat for extra speed with PowerBoost

9 Power levels with a blast of fast. No more waiting around for pots to boil. The PowerBoost function gives you an instant burst of heat. PowerBoost is perfect for tasks that require you to boil a large pot of water quickly.

Pause Function

The pause function is useful if your cooking is interrupted. With the touch of a button all cooking zones will pause the cooking process, whilst another restarts it again with the same settings.

INSTALLATION INSTRUCTIONS FOR BUILT-IN OVEN

- Ensure a minimum clearance of 20 mm (13/16") between the bottom of the cooktop and the oven. This space is essential to facilitate proper airflow .
- There must be a minimum gap of 5 mm (3/16") between the countertop and the door panel of the built-in oven or drawer. This clearance is crucial for optimal operation.
- Please be aware that inadequate airflow can significantly reduce the lifespan of the appliance.
