

WALDSTONE

SOFA | SM5176-SF

DETAILS:

For a whole new look that's bold and attention-grabbing, the Waldstone sofa and love seat set is a prime candidate. Set against a deep hue of navy, the white accent colors of the throw pillows pop and provide beautiful contrast. The pieces are comfortable as well--plush microfiber covers the frame, with low rounded arms that are easy to rest on. Geometric pillows and textured faux-fur pillows help create the perfect space for the design-forward individual.
