### Assembly Steps

1. When each piece of cabinet is used alone, attach male connector of the power switch (A) to a wall plug. (See Diagram 1)
2. Touch dimmer is at the inside of right post.
3. If you want to bunch two or more cabinets together, place them all side by side in a desired location.
4. Leave male connector of the puck light (C) and female connector of power switch (B) for the first cabinet (#1) as it is. Keep male connector of the puck light (C) and female connector of power switch (B) off for the rest cabinets (#2, #3, and so on). (See Diagram 2)

Thank you for purchasing this quality product. Be sure to unpack carefully looking for small parts which may have come loose during shipment.

Read all instruction and study the drawing carefully before starting the assembly process.

**Diagram 3****Assembly Steps**

5. Connect female connector of the puck light (D) (#1 cabinet) with male connector of power wire (E), then have female connector of power wire (F) connected to male connector of puck light (C) (the #2 cabinet). (See Diagram 3)
6. Repeat step 5 for the 3rd cabinet and the rest ones when more than two are bunched together till each one is connected.
7. Plug in male connector of power switch (A) (#1 cabinet).
8. Touch the dimmer of the #1 cabinet, all puck lights connecting together will be on at the same time.

Thank you for purchasing this quality product. Be sure to unpack carefully looking for small parts which may have come loose during shipment.

Read all instruction and study the drawing carefully before starting the assembly process.

### Hinge Replace Instruction:

When the door hinge is damaged, use the Open Wrench (I) to unscrew the hardware and replace with the new hinge.
