Type: Sofas, Two Cushion Sofas

Category: Living Room

Collection: Lennon

Motion Type: Stationary

Material: Leather

Style: Modern/Contemporary

Brand: Modern

Product Description: Plush and deep-seated, the two-over-two Lennon Sofa combines a modern design aesthetic with sit-for-awhile comfort. The track-arm style is complemented by plump loose seat cushions and back cushions, thoughtfully designed for today's modern lifestyle. The sofa is benchmade from sustainably-sourced wood and upholstered by our skilled craftspeople in North Carolina and Virginia.

Features: Track arm design

Material: Leather

Frame Construction: Our M upholstered furniture collection pieces are benchmade from sustainably sourced wood and upholstered start to finish by our skilled craftspeople in both North Carolina and Virginia. Every piece has been thoughtfully designed for today's modern lifestyle. Frames are constructed of sustainably certified kiln dried engineered hardwood. Frame parts are joined with precision cut interlocking joints that are glued, stapled to reduce movement, twisting and warping. Frames have cornerblocks that are glued and screwed at stress points, especially on seat rails and other high stress areas. Depending on rail thickness, frames may be of a hybrid construction, adding a solid hardwood inner frame to give seat rails additional support.

Seat Back: Loose seat back

Seat: Innerspring - High Resiliency plant-based foam core, with coil spring insert for added comfort and longevity. Wrapped with polyester fiber and enclosed in down proof ticking.

Leather: Choice of over 30 leathers to choose from including finishes and aniline leather types

Padding: Padded outside arms and back for smoother surface and neater appearance.

Seating Construction: Seat bases are supported by a sinuous arc metal spring construction. Our springs are made from partially recycled content. Due to the design requirements of some styles, rubberized webbing may be used instead of springs. Double rows of springs are used at the corners for extra support. Seat bases are insulated with polypropylene fabric and are padded with synthetic fiber.
