Product Description: Create a chic and inviting ambiance with our Ashby Place Accent Nightstand with Storage Drawers. The combination of the marble top, storage drawers, and metal accents creates a timeless yet modern look that complements a variety of interior styles. A built-in USB-C port located discreetly on the back allows for easy charging of electronic devices, providing convenient access without cluttering the tabletop. Whether used as a bedside table or an accent piece in living rooms, entryways, or home offices, its versatile design makes it a functional and stylish addition to any room.

Collection Features: Ashby Place displays a sophisticated chic feel with comfortable classic silhouettes, making it suitable for various interior design styles. Quartered ash veneers finished in a soothing neutral gray complement the cool, clean marble and soft silver metal accents. This collection brings a sense of refinement and character to any living space, creating a cohesive and inviting aesthetic.

Status: Active

Finish: The neutral finish seamlessly blends into various design schemes, working well with bold or neutral color palettes

Features: Transitional, chic styling combined with classic elements emphasize simplicity and understated elegance. Features a marble top, two small center drawers, open shelves, and a USB-C port, combining elegant design with modern functionality. A metal X-shaped design base and hardware in a nickel finish add a visually striking aesthetic to the overall design.

Material: Ash Wood Veneers

Drawer Construction: English Dovetail Drawer Construction

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
