

NOIR™ 30" INDUCTION PROFESSIONAL-STYLE RANGE

Signature Features

KNOB-CONTROLLED COOKING

Elevate your cooking experience by controlling power settings from the palm of your hand. The Halo-Effect knobs with LED backlighting glow softly, providing intuitive feedback for oven control.

CULINARY CENTER WITH REMOTE ACCESS

Preheat. Check cooking status. Personalize your settings. Connect to WiFi for real-time notifications and control your appliance from anywhere. Tap and swipe on both iOS and Android devices.*

NOIR™ DESIGN EXPRESSION

Sculpted in stainless steel, the NOIR™ Design Expression features structured grates, expansive black glass, an illusive badge and hidden lace textures only discoverable only by touch. Explore the artful mystery of a minimalist design that rejects dated ideals of beauty.

FLEX-CHOICE™ ZONES WITH ASSISTED COOKING

Flex-Choice™ induction zones can be used as two separate elements or a single, large surface to meet your culinary needs on demand. For added control, Assisted Cooking modes select an optimal power level for simmering, melting, or keeping warm.

DUAL-FAN TRUE CONVECTION

Steady heat, circulated by whirling metal blades, weaves around every flat tine. Beyond baking, wield your cooking prowess with the help of the culinary center through the app, from marbled meats to succulent roasts.

PAN DETECTION

Be guided by intuition with a sensor-driven element that only activates upon contact with the right-sized cookware.

EDGE TO EDGE OBLIVION GLASS DESIGN

Eye-catching black glass that stands out in its surroundings with its sleek surface.

MAGNETIC INDUCTION

Harness the precision of gas with the appeal of a glass top surface. This range and induction's powerful surface directly heats just the cookware, leaving the area surrounding the elements cool to the touch.

BRIDGE FUNCTION

Invoke the heat. Let it course through your cookware with two induction elements that fuse into one, a grand altar for cookware like griddles or braisers.
