	Digital Audio Input/Output: Coaxial	1 / 0
	Analog Audio Input/Output	3 / 0
General	Preout	0.2-ch
	Headphone Output	1
	Standby Power Consumption (IR only)	0.1 W
	Dimensions (W x H x D)	17-1/8" x 6-3/4" x 14-7/8" (with antenna up: 17-1/8" x 9-5/8" x 14-7/8")
	Weight	19.4 lbs.

HDR10+, 8K/60Hz and 4K/120Hz*

This receiver supports end-to-end 8K/4K resolutions and higher refresh rate solutions with a single upgraded cable for seamless integration within the HDMI eco-system. 4K/120Hz enables ultra-fast motion UHD images to be crisp and razor sharp, regardless of what's on the screen.

In addition to displaying dynamic video content on a scene-by-scene basis, HDR10+ also provides, in a small amount of metadata, the scene characteristics between bright and dark so that important visual details are captured.

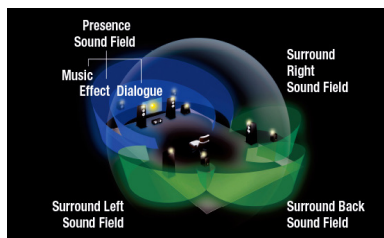

Enhanced Gaming Functionality*

Enhance your favorite games, movies and shows with features that include: Auto Low Latency Mode (ALLM) for smooth, lag-free viewing; Variable Refresh Rate (VRR) to reduce lag, stutter and frame tearing for more fluid and detailed gameplay; Quick Media Switching (QMS) to eliminate the delay and blank frames before content is displayed; and Quick Frame Transport, (QFT) which reduces latency for smoother no-lag gaming, and real-time interactive virtual reality.

CINEMA DSP 3D

This unique Yamaha proprietary sound field technology was created by combining measured sound field data with digital signal processing. By digitizing this vast trove of information and incorporating it into dedicated LSI devices, it effectively reproduces the spaces of concert halls and music clubs in your home.

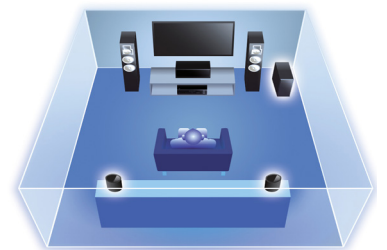

YPAO™

YPAO (Yamaha Parametric room Acoustic Optimizer) analyzes the room acoustics and your system, then precisely adjusts various audio parameters to provide the best sound for your room. By simply placing the supplied microphone at your listening position and switching YPAO on, the system is automatically calibrated for optimum performance for your home theater.

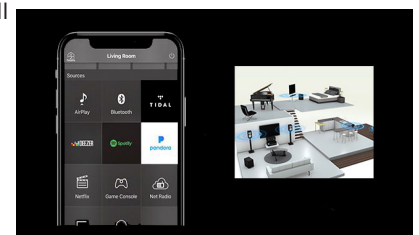

MusicCast Surround

Combine this AV receiver with the MusicCast 50 or two MusicCast 20 wireless streaming speakers and enjoy MusicCast Surround, creating a 5.1-channel home theater with wireless surround sound. What's more, you get stunningly realistic sound with a clean, clutter-free setup. Easily turn your living room into a home theater where you can fully enjoy movies and music.

MusicCast Multi-Room Audio

Use your smartphone or tablet together with the MusicCast app to operate the AVR and change settings quickly and easily. The same app functions as a remote control for all of your MusicCast-compatible devices as well as having full multi-room audio controls.

*Available via future firmware update, including Dolby Atmos Height Virtualization.

This AV Receiver is compatible with AirPlay 2. iOS 11.4 or later is required. Use of the Works with Apple badge means that an accessory has been designed to work specifically with the technology identified in the badge and has been certified by the developer to meet Apple performance standards.
