

LADDER BACK CHAIR, LATTE

The Kafe Ladderback Dining Chair is the most flexible from a style perspective in the the casual dining selection. Few chair styles have proven to be as timeless as the ladderback, and for good reason. This look does well across a range of interiors from classic shaker to the new craftsman, and casual loft. Adding to this flexibility is the choice of either upholstered seat or wood seat. Many customers enjoy the comfort of a fabric dining seat so we used a performance fabric made to repeal stains and withstand years of everyday use. Others may prefer the wood seat option for its more casual look, and the quick cleaning and worry free nature of a solid wood seat.

- Alder and Select Hardwoods

Solid Wood - Made using genuine solid wood construction
