NOW YOU CAN

Description

Savant's IDC-200L transforms the Apple® iPad® into a cost-effective, wireless charging panel providing an exciting touch interface option.

The IDC-200L is comprised of a Mounting Plate (IDC-2MPL) and a Back Box (IBB-200L). A low-profile, magnetically attached bezel may be ordered in several finishes to match any decor.

The iPad is powered via the Mounting Plate and its touch screen is used for wireless navigation and control of Savant automation and control solutions.

The IDC-200L is specifically designed as a fixed docking solution and is not intended to be removed.

The iPad is placed in the docking station and mechanically held with a locking fastener. The IDC-200L supports any iPad with the new Lightning™ Connector.

Feature Summary

- In-wall wireless charging dock for the new Lightning Connector (iPad® not included)

- Transforms an iPad into a fixed wireless in-wall touch panel

- Easy to install and effortlessly placed in strategic installations

- Portrait or landscape installation options

- Scalable and expandable—add multiple in-wall charging docks throughout the installation

- Removable, magnetically attached bezels

- Bezels available in white, black, almond, polished chrome, satin nickel, oil bronze or paintable primer finish

- Cost-effective solution that is simple to install—ideal for retrofits

- Configured and customized using RacePoint Blueprint™

NOTES:
1. iPad not included. For the original iPad, iPad 2, or iPad (3rd generation) that contain the 30-pin connector, use the following in-wall dock models IDC-2000-XX.
2. Bezels are sold separately.
3. The IDC-200L does not provide Savant network connectivity or communications.
