

Lexington Plush Box Pillow Top

TAILORMADE, HAND CRAFTED DETAILS

Tufting, Self Welt Tape Edge, Embroidered Handles, Steel Corner Guards, Upholstered Border Fabric, Embroidered Labels

- ① **Tailormade Tufting™** - Tufting keeps the comfort and supports layers from shifting and sagging over time to help maintain years of a consistent and comfortable sleeping surface
- ② **Graphite Infused Memory Foam** - An open cell structure memory foam combined with graphite provides a breathable heat-removing surface to disperse heat away to keep you cool throughout the night.
- ③ **Carbon Cool Gel Memory Foam** - Draws heat away from your body and promotes better airflow to enhance your sleeping experience with the optimal sleeping surface temperature.
- ④ **Graphite Latex** - Graphite, a natural mineral, is infused with latex to enhance the resiliency and durability for pressure relieving comfort while helping wick away moisture and heat from your body for an optimal sleeping temperature surface.
- ⑤ **4K Micro Coils** - The ultimate in comfort, luxury and pressure relieving support is found with the 4000 micro encased coil system.
- ⑥ **Horse Hair** - Each strand of horsehair is a hollow tube that transports away moisture and excess body heat providing optimal sleeping temperature. Horsehair is also an organic material with natural antibacterial, anti-fungal and anti-mite properties that contribute to a healthy, hygienic sleeping environment.
- ⑦ **Handcrafted Calico Encased Coil System** - Over 1000 steel coils are wrapped in a breathable natural calico fabric which are then stitched together allowing for greater flexibility and reaction to your body movements.
