

CD-S303 CD Player

This high-quality CD player is easy to operate and includes special features like Pure Direct, Intelligent Digital Servo and USB with MP3/WMA/LPCM/FLAC compatibility.

Pure Direct

The CD-S303 offers Pure Direct, which shuts down the digital audio output and turns off the display. This reduces digital noise interference for the highest possible sound quality from the analog output.

High-Performance D/A Converter

Utilizing a 192 kHz/24-bit DAC, the high-performance D/A conversion system takes full advantage of the digital technology refined by Yamaha over the years, ensuring excellent conversion precision, S/N ratio and dynamic range.

Enjoy Your MP3, WMA, LPCM, AAC and FLAC Music

The USB port on the front panel gives you an easy way to enjoy high-quality sound from MP3, WMA, LPCM, AAC or FLAC digital music files stored on USB memory devices. You can also play files recorded on CD-R/RW discs.

Sophisticated Design

The CD-S303 inherits many of the sound quality features of high-end CD player components. Yamaha technicians have devoted themselves to creating sophisticated circuitry, short signal paths and well-matched high-quality parts to create the best possible sound quality.

Additional Features

- Mechanical playback
- Laser pickup floating mechanism
- Intelligent Digital Servo keeps out unwanted vibrations
- CD-R/RW disc playback
- Play Mode Memory to keep the same play mode for each disc
- 10-key direct track and direct access
- Random play
- Repeat play (full/single)
- Dimmer with 4 illumination levels
- Last track resume

CD-S303 CD PLAYER SPECIFICATIONS

Type	Single
Disc Compatibility	CD, CD-R/RW
Signal-to-Noise Ratio	105 DB (CD)
Dynamic Range	96 dB
Harmonic Distortion	0.003% (CD)
Frequency Response	2 Hz-20 kHz (CD)
Output	Optical, Coaxial and Analog RCA
Dimensions (W x H x D)	17-1/8" x 3-3/8" x 10-1/4"
Weight	7.7 lbs
