Product Description: Transform your living room with our Wade Floor Mirror, exuding elegance and charm in a natural light oak finish. Crafted with oak veneers and beveled mirror glass, its sleek design make it a perfect accent piece for any modern interior. Experience unparalleled clarity and durability with our meticulous multiple-step finish process, ensuring this mirror adds a touch of sophistication to your space for years to come.

Status: Active

Finish: Natural light oak finish

Features: Beveled mirror glass
Natural oak finish
Rectangle shape

Material: Oak Veneers and Glass

Finish Construction: M utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship

such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: M uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
