In Stock | New

Overall: 11"h x 5.75"w x 9.5"d

Finish: Dark Brown / Polished Gold

Materials: Bronze

Item Weight: 18 lbs.

The artisans who created the Gatto Bronze sculpture captured an authentic gaze and lifelike aspect. Finished in black bronze, this piece comes to life through a multi-step lost-wax casting process. After casting, the artist adds thoughtful touches like polishing or additional finishes to complete the look, illustrated here by the polished goldfish the cat holds in its paws.
