Acoustically Transparent Screen

Harmony G2 - All New Weave

- For audio purists wanting a realistic soundstage when viewing concerts or movies
- Does not skew blue - no characteristic "blue bump" seen in many competitor's woven screens
- Less loss of mid to high frequencies means minimal digital correction or EQ, if any
- Maximum image height 120"

MicroPerf X² THX Ultra Certified - Acoustically Transparent

- Provides a specialized diamond-shaped perforation pattern, oriented to eliminate moiré
- Delivers optimal balance of sound and visual fidelity
