Play more with multiple format support

The NW-A26HN series supports High-Resolution Audio formats as well as popular formats like MP3, WAV, AIFF, WMA, AAC, HE-ACC, FLAC, and ALAC.

Enjoy high-quality wireless music streaming via Bluetooth®

Enjoy easy, one-touch connectivity and music streaming with NFC. No NFC? No problem. Connect via Bluetooth® and you're ready to go.²

Listen longer with improved battery life

Never run out of power when you're on the move. The NW-A26HN holds enough charge for up to 50 hours of MP3 playback, or up to 30 hours of High-Resolution Audio playback,¹ so you don't have to worry about finding a charger when you're out and about.

Upscale compressed audio files to near Hi-Res quality with DSEE HX

Go beyond CD quality. DSEE HX builds on our proprietary DSEE technology, upscaling compressed audio files to a level that's closer to High-Resolution Audio. By restoring the subtleties of the original recording that are lost during the compression process, DSEE HX delivers a rich, studio-quality audio experience for all your music.

S-Master HX digital amp delivers accurate, detailed music playback

The built-in S-Master HX digital amplifier helps bring out the best of your High-Resolution Audio. It achieves this by reducing the noise levels usually experienced in the high frequency ranges, so you can enjoy clear, sharp sound.

Drag & drop from iTunes for Mac or Windows

With a Walkman® player, you are never tied to just one music service. Just drag and drop files from iTunes® for Mac® or Windows® and enjoy. Multi-format playback also lets you play MP3, WMA, AAC or L-PCM music files; now that's freedom.

Compact, slim design

Beautiful, lightweight and slim design for portable comfort.

Easy to navigate with the 2.2" QVGA LCD display

The 2.2" QVGA anti-reflective LCD display delivers rich and clear viewing of album artwork, photos, and even videos.
