## 24" Built-In Insert Range Hood

### FEATURES & BENEFITS

#### Built-In Style Range Hood

Offers premium performance in a discreet package. This hood is specifically crafted to be fully integrated within your overhead cabinets, for a seamless finish.

#### 3 Fan Speeds

Featuring three-speed settings, delivering optimal airflow for any cooking situation, ensuring effective ventilation whether you're simmering, sautéing, or frying.

#### Quiet CFM Motor

Experience cleaner kitchen air with our efficient range hood. Its dependable motor effectively removes smoke, grease, and odours while operating at minimal noise levels, ensuring a peaceful cooking environment.

#### LED Lighting

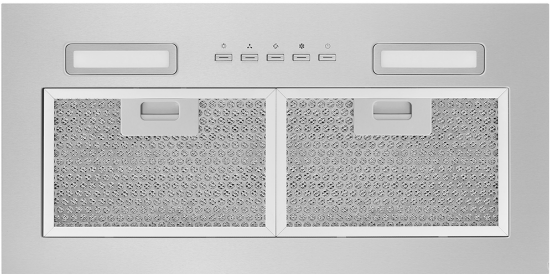

Energy-efficient, long-lasting LED lights effectively illuminate your cooking surface, enhancing the visibility of the cooking process.

#### Push Button Control

Located on the front of the unit, these controls make regulating the hood functions more convenient. From modifying the fan speed to adjusting the light settings, giving you complete control of the cooking process.

#### Dishwasher-Safe Honeycomb Filters

These highly functioning filters remove grease and odours when cooking. These removable filters can be cleaned in the dishwasher, ensuring that your hood is continually efficient.

\*NOTE

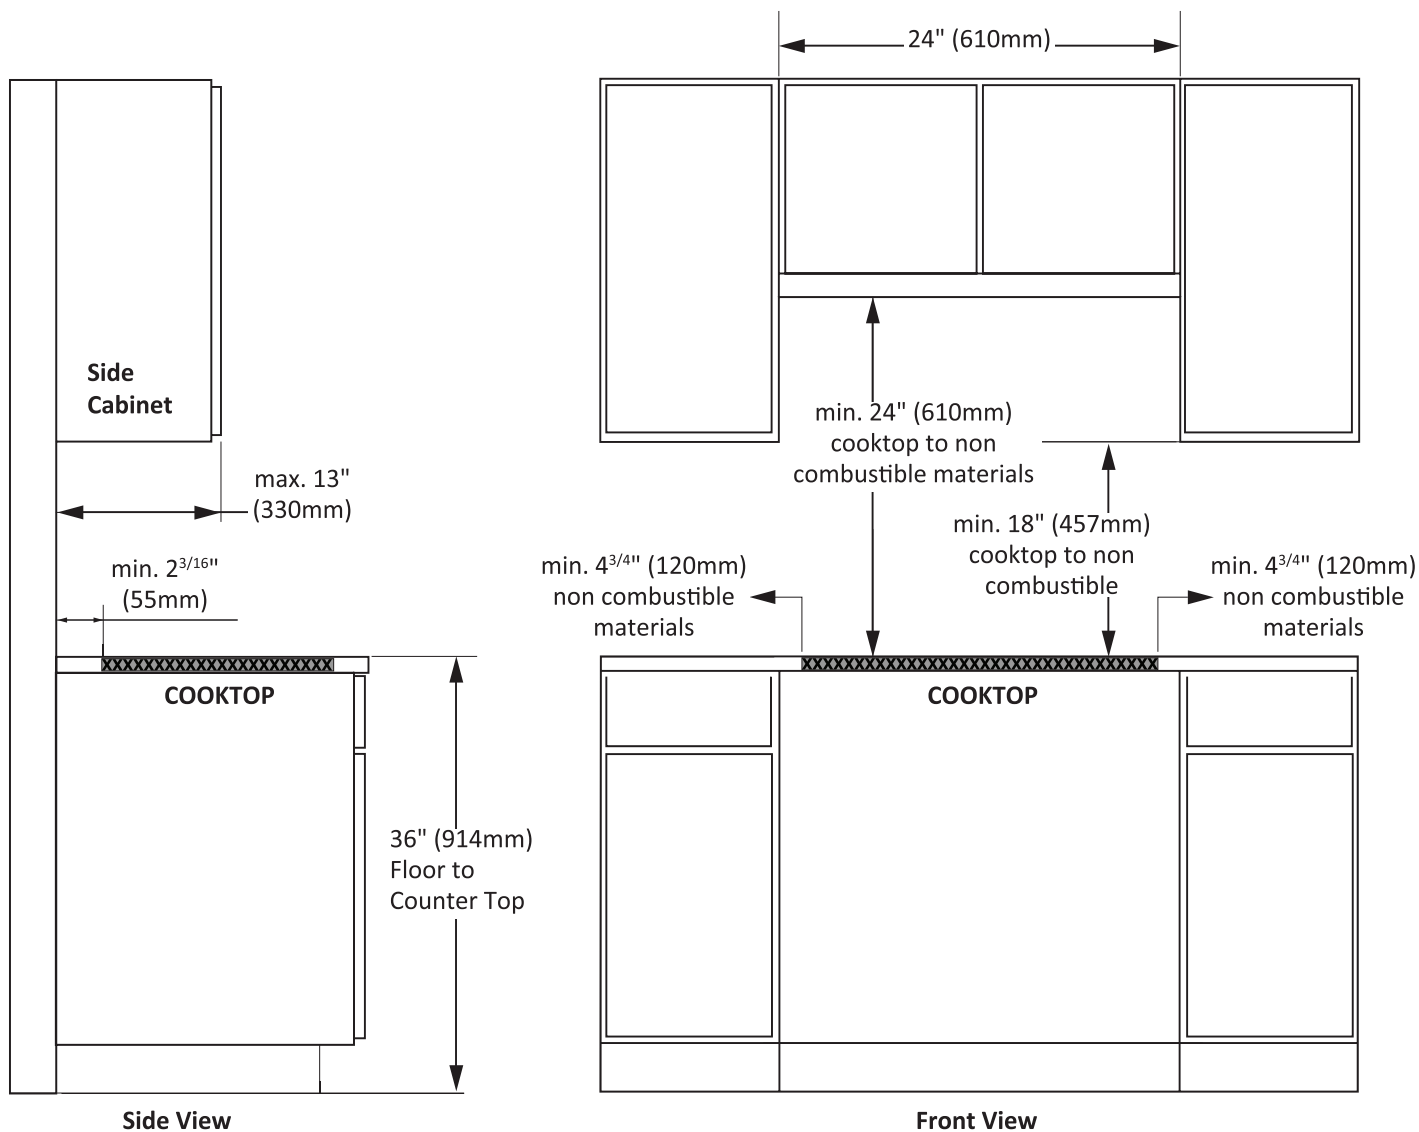

- 1. The range hood must be installed at a minimum height of 24" above the cooking surface, whether it is a gas, electric, or induction cooktop.
- 2. Ensure that the wall designated for hood installation is adequately sturdy to support the range hoods weight. Additionally, ensure the hood is mounted level for the best performance.
- 3. Cut a hole in the cupboard according to the size in the image below.
- 4. Bottom hinges of the cabinet door should be installed at 5" or more above the cabinet base.

Assumes installation with 5/8" wide cabinet gables

## Recommended Cabinet Minimum Clearance From Cooking Surface
