

JAMO STUDIO SERIES • S 526

Design

The Jamo S 526 combines Danish style and practicality with class-leading sound in a truly high value speaker offering. The Dark Apple or Black Ash finish is neatly complemented by soft-feel black baffles that give the speaker a premium and contemporary appearance. The S 526 is fully equipped for optional bi-wiring and bi-amplification and includes optional speaker spikes for increased speaker stabilization.

Technology

- 1-inch (25 cm) soft dome tweeter/dual 6.5-inch (165 cm) aluminized woofers.
- Bass-reflex design with dual flared, rear-firing ports: Increases system efficiency and bass output.
- Waveguide: A unique tweeter faceplate that provides more uniform dispersion in the critical frequency range of 2-10 kHz. Dynamics and clarity are enhanced while distortion is significantly reduced.
- Centre-plug: Replaces the typical dust cap and eliminates cone breakup, for a woofer with faster "attack" and tighter, more natural bass.
- Aluminized woofers: Increases driver cone rigidity for solid bass reproduction.
- Individually chambered woofers: Woofers housed in separate, isolated enclosures minimize driver interference while the separate chambers add additional internal cabinet bracing.
- Dual, 5-way binding posts: Allows for bi-wiring/bi-amplification with multiple connection options with wire up to 12 gauge (AWG).

Specifications

	S 526
System Type	2 Way Bass Reflex
Tweeter (mm/in)	25 / 1
Woofer (mm/in)	Dual 165 / 6.5
Frequency Response (Hz +/- 3 dB)	45-20,000
Power Handling (Watts Long/Short Term)	130 / 180
Sensitivity (dB, 2.8V/1m)	89
Crossover Frequency (Hz)	2500
Impedance (Ohm)	6
Product Dimensions (mm/in, HxWxD)	1000 x 195 x 301 / 39.4 x 7.7 x 11.9
Weight (Kg/lb)	15.2 / 33.5
Finishes	Black Ash, Dark Apple
